Background note for Amendment of RPO Target

Ministry of Power has amended the existing National Tariff Policy on 28th Jan'2016 . As per clause 6.4(i) of that National Tariff Policy , “ the SERC will reserve a minimum percentage for purchase of Solar energy from the date of Notification of this Policy which shall be such that it reaches 8 % of total consumption of energy , excluding Hydro Power by March'2022 or as notified by the Central Government from time to time ” .

Distribution Licensee i.e. TSECL had requested TERC that they will not be able to increase Generation of non-solar power due to some restriction and to compensate the quantum by increasing the Solar component of RPO . Accordingly , TERC prepared the existing table for RPO target considering the non-solar component to a certain limit which has already been incorporated in “ Renewable Energy Regulations-2015 ” and the same was Notified in TRIPURA GAZETTE on 18th Dec'2015 .

Thus , considering the above situation , TERC has desired to amend the existing clause 26(II)(b) of the “ Renewable Energy Regulations-2015 ” .
